

Uroš Nešić

Front-end developer

unesic.io[@unesic](https://github.com/unesic)hire@unesic.io[@unesic](https://www.linkedin.com/in/unesic)

About me

Software engineer specializing in full-stack web development with primary focus on the front-end technologies. Fueled by undoubtedly weird sense of humor and lots of coffee (mostly the latter), I spend most of my waking hours looking for interesting project ideas and ways to leave my mark on the ethereal thing that is the Internet.

Technologies

HTML

CSS

JS (ES6+)

TS

React (Context API, Router)

Redux

Vue

Express.js

GraphQL

MongoDB (Mongoose)

Heroku

WordPress

git

Experience

Frontend Developer @ [Neopix](#)

February, 2022 – Present

\$ Coming soon...

WordPress Developer @ [BlueGrid](#)

February, 2020 – January, 2022 (2 years)

- \$ Custom theme, templates and post types development for a highly trafficked website
- \$ Converting Figma designs to fully responsive, functional and interactive website pages
- \$ SEO and performance optimization using various caching and lazy-loading techniques
- \$ Custom solutions development using React along with TypeScript and 3rd party APIs
- \$ Production of clean, easily-maintainable and scalable JavaScript, CSS and php code

WordPress Developer @ [lvapix](#)

September, 2018 – January, 2020 (1 year 5 months)

- \$ Designed, developed and shipped beautiful and modern-looking websites for clients
- \$ Website hosting maintenance through cPanel and maintenance of the website itself
- \$ Tracked analytics and SEO performance using Google Search Console and Analytics
